Hatfield Project

New Richmond Area Youth Sports Association

We are a Nonprofit Organization

We are a group of like minded adults who had a dream for our youth to be able to group together and build a new Sports Complex. New Richmond is a growing community, the number of youths in sports is growing and our present fields no longer can keep up with our numbers. We need the space for fields so that we can continue meeting our communities needs. We started off as four separate sports organizations, which merged together to form the New Richmond Area Youth Sports Complex.

We are now in the process of trying to raise and collect donations to fulfill the dream of children and adults alike, having a Sports Complex at Hatfield Park in New Richmond, WI. Right now we have Softball, Baseball, Football and Soccer included in our Sports Complex. We hope to add more sports in the future.
